# CHALLENGES + SOLUTIONS = SAFETY ANYWHERE

## Labor Cost & Errors

- Eliminate manual record-keeping
- Detailed audit trail
- Enforce standardized workflows
- Electronic forms with automatic triggers

## Slow Turnaround

- Reduce time to submit requests
- Standardize procedures across personnel & locations
- Automate reminders
- Parallel & sequential action items

## Low Visibility

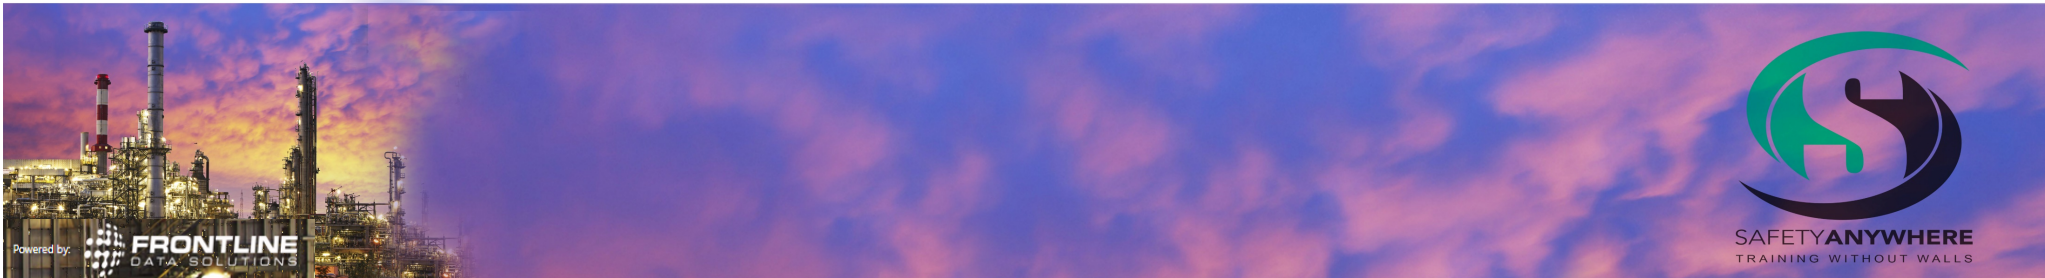

- Instantly produce customizable reports
- Schedule reports to go out automatically
- Real-time dashboards
- Accessible from any authorized device via the cloud

## High Maintenance

- Finely tuned permission settings by user & area of responsibility
- Built for non-technical users in industrial environments
- Continuous data back-up and maintenance

# SAFETY ANYWHERE - FEATURES

- **Automated**

- Email reminders, escalated over time
- Automatically select workflows
- Trigger action items from form responses
- Assign tasks to individuals or job titles

- **Customizable**

- Create & save custom workflows
- Built-in editor for custom electronic forms
- Complete control over user permissions
- Manage multiple locations & departments

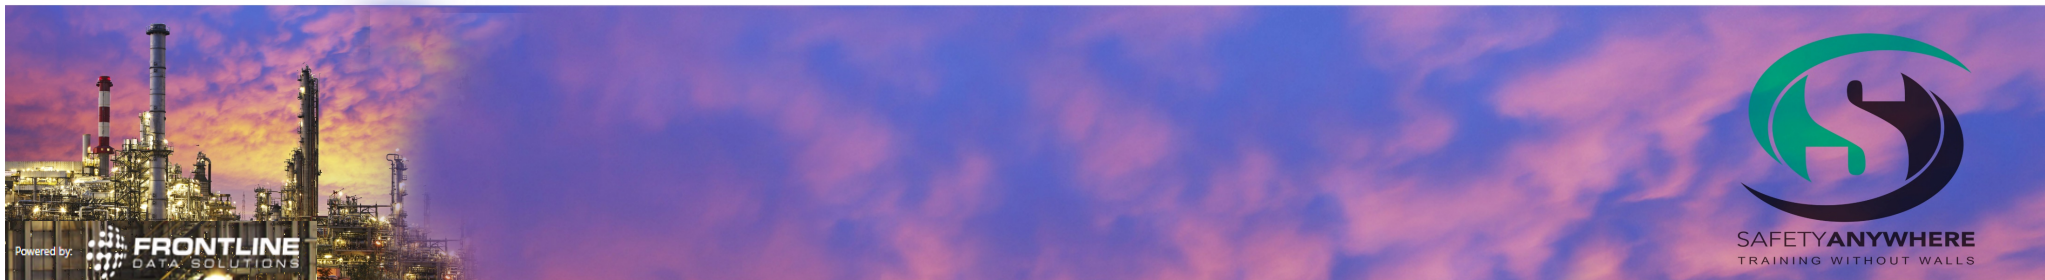

- **Transparent**

- Fully customizable reports
- Schedule reports to run automatically
- Comprehensive audit trail
- Access from any location or device

- **Easy to Use**

- Cloud hosting & maintenance by Frontline
- Continuous, redundant data back-up
- Simplified interface for basic users
- Attach documents as files or network links

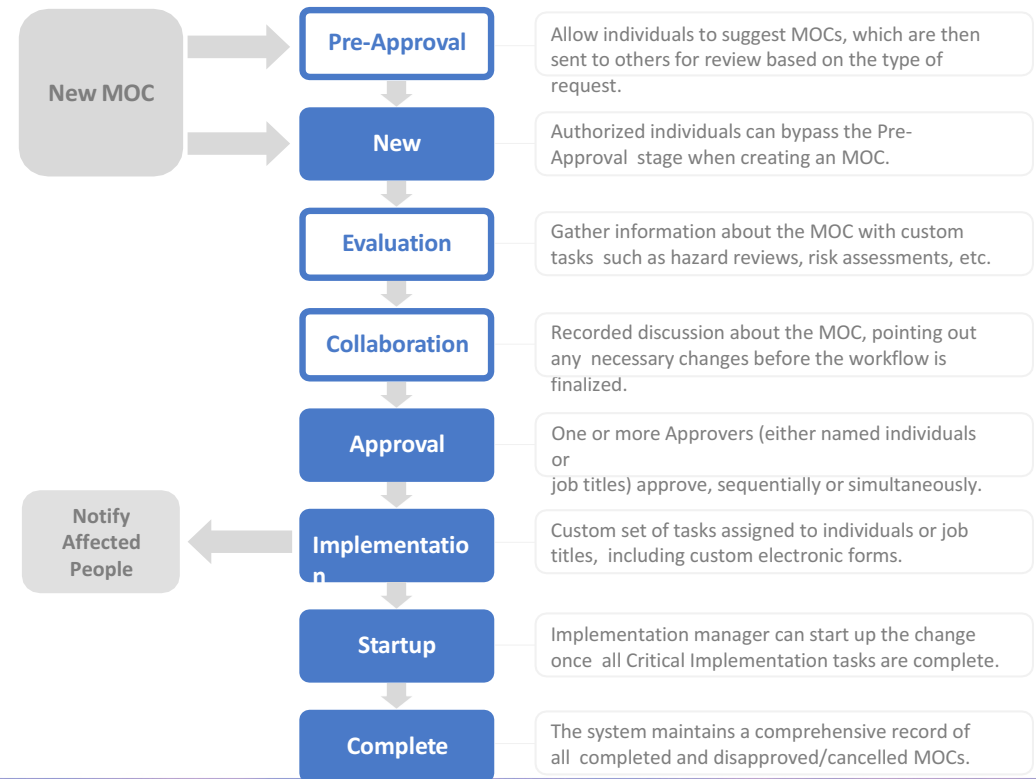

# MOC: Workflow Stages

MANAGEMENT OF CHANGE

## MOC

Streamline, automate, and standardize operational, equipment, and organizational changes

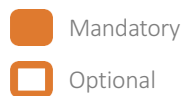

SAFETYANYWHERE
